- 2019** Public Mural with Lacey Emmanuel @ 12th and Webster, Oakland, CA

### PROJECTS

#### **The Immediate Relief Fund - Co-founder, organizer** December 2016 - June 2017

Created in the aftermath of the Ghostship fire, this small artist-run group raised over 80,000 dollars that was distributed to over 100 people using an intersectional, need based and liberatory model. We also worked with the Gray Area fund helping to create empathetic and informed policy based on our understanding of community needs, holding workshops to help bereaved community members fill out the necessary paperwork to receive aid.

#### **SLURP - Co-founder, Studio Manager, Facilities Director** January 2016 - August 2021

SLURP was a BIQTPOC and femme/womxn-centered shared art studio space (and sometimes gallery) that provided affordable, accessible and inclusive studios to artists in DIY community for seven years. Located in West Oakland, next door to co-founder Cell Phone's Gay 4 U! restaurant, it was a hub for intersection between queer and local communities. Over the years it gave many notable Bay Area artists a place to work including Gaia WXYZ, Jose Figueroa, and Maya Songbird. It also was a space for performance and hosted gallery shows, including events for The Universe is Lit in 2017.
